Water Conditioning Agent

Adjuvant

### PRINCIPAL FUNCTIONING AGENTS

Potassium salts of hydroxyl carboxylic, phosphoric, and poly-acrylic acids and amine phosphate . . . . .	50%
Constituents Ineffective as Spray Adjuvants . . . . .	50%
Total . . . . .	100%

Components exempt from tolerance under 40CFR 180

### GENERAL INFORMATION

**Speedway** is a highly functional spray adjuvant for glyphosate and certain other post-emergent herbicide, defoliant and dessicant sprays. **Speedway** can replace ammonium sulfate in glyphosate applications. It is designed to condition spray water which may lead to increased pesticide activity and improved absorption into leaf surfaces. **Speedway** contains a proprietary blend of powerful water conditioning agents designed to improve the characteristics of hard water and neutralize metal cations.

**Speedway** may be used where water conditioning may positively affect pesticide performance. **Speedway** is compatible with most ammonium nitrogen sources, including 32-0-0, 10-34-0 and ammonium sulfate. In some cases, additional ammonium nitrogen may be added to the spray tank to meet specific pesticide label requirements. **Speedway** does not replace a surfactant. If the pesticide label requires a surfactant, use CHEMSURF 80 or CHEMSURF 90 at recommended rate. The efficacy of **Speedway** and the effects of the spray application may be affected by various environmental factors and the condition and operation of the sprayer. Periodic calibration of spray equipment and visual inspection of the spray application may necessitate an adjustment of the adjuvant rate.

When used according to the Directions for Use, **Speedway** is compatible with all glyphosate formulations and many other pesticides and fertilizers. Do not use with sulfonyleurea herbicides. Maintain good equipment hygiene by cleaning pumps, lines and tanks after using this product.

### DIRECTIONS FOR USE

**Speedway** is intended for use with products registered for agricultural, horticultural, turf, ornamental and non-crop uses.

#### ADD **Speedway** TO WATER BEFORE ADDING PESTICIDES

#### General use rate for water conditioning

- Standard: 1 quart per 100 gallons of water
- Ground/Air range: 1-6 pints per 100 gallons of water

#### For severe water conditions or to maximize pesticide activity

- Ground/Air: 3-6 pints per 100 gallons of water
- Use a minimum of 1/2 pint per acre

Use higher rates of **Speedway** in areas where the water has a high mineral content.

### STORAGE AND DISPOSAL

**Storage:** Store in a cool, dry place. Store only in the original container. Do not store near feed or food.

**Disposal:** Triple rinse container and offer for recycling/reconditioning or dispose of at an approved sanitary landfill. **DO NOT REUSE EMPTY CONTAINER.**

### PRECAUTIONARY STATEMENTS

#### HAZARD TO HUMANS AND DOMESTIC ANIMALS

**CAUTION:** Harmful if swallowed or absorbed through skin. Causes moderate eye irritation. Avoid contact with skin, eyes, and clothing. Avoid inhalation of spray mist. Wash thoroughly with soap and water after handling. Read and follow all precautionary statements on the accompanying pesticide label(s).

**KEEP OUT OF REACH OF CHILDREN**

**CAUTION**

**- STOP -**

**READ ENTIRE LABEL BEFORE USING**

#### FIRST AID

**If in eyes:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.

**If on skin or clothing:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

**If swallowed:** Call a poison control center or doctor immediately for treatment advice. Have a person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person. Call a poison control center or doctor for treatment advice.

**If Inhaled:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible.

### CONDITIONS OF SALE AND WARRANTY

The Directions for Use of this product are based on field use and tests. The directions are believed to be reliable and should be followed carefully. However, it is impossible to eliminate all risks inherently associated with the use of this product. Crop injury, ineffectiveness, or other unintended consequences may result because of such factors as weather conditions, presence of other materials, or the manner of use or application all of which are beyond the control of manufacturer or the Seller. All such risks shall be assumed by the Buyer. THE MANUFACTURER OR SELLER MAKES NO OTHER EXPRESSED OR IMPLIED WARRANTY OF FITNESS OR MERCHANTABILITY OF ANY OTHER EXPRESSED OR IMPLIED WARRANTY. IN NO CASE SHALL THE SELLER BE LIABLE FOR CONSEQUENTIAL, SPECIAL, OR INDIRECT DAMAGE RESULTING FROM THE USE OR HANDLING OF THIS PRODUCT. The manufacturer and the Seller offer this product, and the Buyer and User accept it, subject to the foregoing Conditions of Sale and Warranty, which may be varied only by agreement in writing signed by a duly authorized representative of the manufacturer.
