GENERAL INFORMATION

Fulltec X is a premium general purpose drift and evaporation reduction agent for use with herbicides, fungicides, insecticides, acaracides, defoliants, dessicants, PGR's and nutritionals. The drift and evaporation reduction agents in Fulltec X are designed to improve wetting, coverage and humectancy of agriculture sprays on leaf, stem or insect surfaces.
Fulltec X contains a sticker that resists re-wetting of spray deposits by dew, irrigation or rain. It also contains a defoamer that helps suppress spray tank foaming. The product is suitable for use where the pesticide label recommends a non-ionic surfactant, spreader or wetter.
