VINTRE

PENETRANT-SPREADER-WETTING AGENT FOR TREES, VINES, BERRIES AND SMALL FRUITS

PRINCIPAL FUNCTIONING AGENTS

Alcohol ethoxylate	8.15%
Constituents ineffective as spray adjuvants	91.85%
Total	**100.00%**

All ingredients are exempt from tolerance according to 40 CFR 180
Surfactant Content: 8.15%

KEEP OUT OF REACH OF CHILDREN

WARNING / AVISO

Si usted no entiende la etiqueta, busque a alguien para que se la explique a usted en detalle.
(If you do not understand the label, find someone to explain it to you in detail.)

HAZARD STATEMENTS: HARMFUL IF INHALED. CAUSES SERIOUS EYE IRRITATION.
PRECAUTIONARY STATEMENTS: Wash hands thoroughly after handling. Wear protective gloves. Wear eye protection or face protection. Avoid breathing fume/mist/vapors/spray. Use only outdoors or in a well-ventilated area.
ENVIRONMENTAL HAZARDS: Do not contaminate water sources by cleaning of equipment or disposal of wastewaters.

FIRST AID

Call a POISON CENTER or doctor/physician if you feel unwell.
For Chemical Emergency (spill, leak, fire or accident), call CHEMTREC (800) 424-9300
EYE CONTACT - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Have the product container with you when calling a poison control center or doctor, or going for treatment. If eye irritation persists: Get medical advice or attention.
SKIN CONTACT - IF ON SKIN OR CLOTHING: Take off contaminated clothing and wash it before reuse. Wash with plenty of soap and water for several minutes. Call a poison center, doctor, chemical manufacturer or distributor to specify the appropriate source of emergency.
INGESTION - IF SWALLOWED: Do not give anything by mouth to an unconscious person. Call a poison center, doctor, chemical manufacturer or distributor to specify the appropriate source of emergency medical advice.
INHALATION - IF INHALED: Remove person to fresh air and keep comfortable for breathing. Call a poison center/doctor if you feel unwell.

GENERAL INFORMATION

VINTRE® is a highly effective surfactant designed for use with insecticides, miticides, fungicides, herbicides, plant growth regulators and nutrients. VINTRE is designed for superior spreading and uniform distribution. VINTRE assists in overcoming water repellency of leaf surfaces and may be used with most pesticides, PGRs and fertilizer products.

DIRECTIONS FOR USE

Prior to use, read all the directions on this label and on the labels of the manufacturers' products being used with VINTRE. The manufacturers' labels for specific usage and restrictions has precedence over directions for use referred to on the VINTRE label. Test for compatibility prior to mixing and application with other chemicals. Always test new tank-mix combinations before widespread use. If unsure, check with the manufacturers or contact your local State Extension Service if you have questions. To ensure thorough mixing, it is suggested that you recirculate mini tanks and bulk tanks or shake containers before using. Pre-rinse all tanks, spray lines or containers thoroughly before adding VINTRE as VINTRE contains surfactants. VINTRE should not be added to tanks, spray lines, or containers which may contain additional surfactant adjuvant products. Coatings on inner tank and spray lines, from previous chemicals sprayed, may be dissolved by VINTRE, thereby releasing it into the mix about to be sprayed. If in doubt, add 20 ounces of VINTRE to 20 gallons of water circulate through system for 20 minutes, spray to waste. Increasing tank mix compounds will increase precipitation and phytotoxicity risk. Extended high temperatures (>90° F) with some tank mixes may increase phytotoxicity risk and should be tested and observed before widespread use.

PRECAUTIONS

- The fruit of some varieties of pears, cherries, table grapes and grape fruits may be sensitive to marking. Contact your Oro Agri representative before use.
- Do not apply to crops under stress.
- Test for compatibility when combining in tank mixes with EC products, copper and/or chlorpyrifos on sensitive crops.
- NOTE: VINTRE reduces dew formation for up to 7 days and, therefore, may increase the risk of frost damage in frost prone areas.
- NOTE: NOT FOR AQUATIC USE.

MIXING

Fill tank one-half full with water. Add the required amount of other tank mix products while agitating. Add remainder of the water. Add the recommended amount of VINTRE last and continue agitation until completion of spraying. For best results, use within 24 hours of mixing. Antifoam and buffering agents may be used if required.

NOTICE OF WARRANTY

CONDITIONS OF SALE-LIMITED WARRANTY AND LIMITATIONS OF LIABILITY AND REMEDIES: To be read prior to using this product. The directions should be followed carefully together with good application practice. Failure to do so may cause injury to crops, animals, man or the environment. Extraordinary or unusual weather conditions may affect product performance and/or crop injury which are beyond the control of Oro Agri, Inc. (the "Company") or seller. The Company warrants that this product conforms to the chemical description on the label and is reasonably fit for the purpose referred to in the Directions For Use. The Company makes no other warranties or representations of any kind, express or implied, concerning the product, including no implied warranty of merchantability or fitness for any particular purpose, and no such warranty shall be implied by law. The exclusive remedy against the Company for any cause of action relating to the handling or use of this product shall be limited to, at Company's election, ONE of the following: 1. Refund of the purchase price paid by buyer or user for product bought. 2. Replacement of the product used. To the extent allowed by law, the Company shall not be liable and any and all claims against the Company are waived for special, indirect, incidental, or consequential damages or expense of any nature, including, but not limited to, loss of profits or income. The company/seller offer this product and the buyer/user accept it, subject to the foregoing conditions of sale and limitation of warranty, liability and remedies.

RECOMMENDED RATES

INSECTICIDES, MITICIDES, FUNGICIDES & NUTRIENTS:

- VINES: Use 8-40 fl. oz. per 100 gallons of water. DO NOT EXCEED 64 fl. oz. per acre. On table and wine grapes during or prior to a period of excessively high temperatures (>90°F) and during the period of flowering to harvest on table grapes DO NOT EXCEED 32 fl. oz. per acre.
- BERRIES/SMALL FRUITS: Use 8-40 fl. oz. VINTRE per 100 gallons of water. DO NOT EXCEED 64 fl. oz. VINTRE per acre.
- HOPS: Use 8-40 fl. oz. VINTRE per 100 gallons of water. DO NOT EXCEED 64 fl. oz. VINTRE per acre.
- TREES (excluding Citrus): Use 8-40 fl. oz. VINTRE per 100 gallons of water. DO NOT EXCEED 64 fl. oz. VINTRE per acre.
- CITRUS: Use 8-40 fl. oz. VINTRE per 100 gallons of water. DO NOT EXCEED 64 fl. oz. VINTRE per acre during June to September high volume (>400 gpa) applications or 96 fl. oz. VINTRE per acre for other citrus sprays.
- ULTRA-LOW VOLUME EQUIPMENT (like aerial, electrostatics & misters): Use 3-32 fl. oz. VINTRE per acre. DO NOT EXCEED 100 fl. oz. VINTRE per 100 gallons of water (0.8% v/v).

HERBICIDES

Use 24-96 fl. oz. VINTRE per 100 gallons of water. Use the higher rates on weeds with waxy or hairy leaf surfaces that are hard to penetrate. Use maximum concentration of VINTRE in water volumes less than 10 gallons per acre (like aerial or ultra-low volumes).

PLANT GROWTH REGULATORS

Use 5-10 fl. oz. VINTRE per 100 gallons of water. DO NOT EXCEED 20 fl. oz. VINTRE per acre.

DORMANT AND DELAYED DORMANT OIL SPRAYS

Add 1-2 quarts of VINTRE per acre when applied as adjuvant with crop oils or up to 3 quarts VINTRE per acre when applied with insecticides, miticides, fungicides and nutrients. Apply in a water volume adequate to wet the target.

STORAGE AND DISPOSAL

PROHIBITIONS: Do not contaminate water, food or feed by storage, disposal or cleaning of equipment. STORAGE: Store in original container only and keep sealed. Handle in accordance with precautionary statements. In the event of spillage or leakage, soak up the material with absorbent clay, sand, sawdust or other absorbent materials. Scrape up and dispose in accordance with Product Disposal. PRODUCT DISPOSAL: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility. CONTAINER DISPOSAL: Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal.

Patented and or patent/s pending.
